Subject: Microsoft Settlement

Dear DOJ,

I am writing this regarding to the Microsoft Settlement Case as a consumer, my point of view is the case has been prolong enough. It is bad for the economy, derail innovation for new technology. Majorily of the public are aware they do have a choice to choose from all vendors of software makers and they are more acknowlegeable regarding what they buy from a decade ago. Also, technology has been advanced so fast, even the laws can't keep up and I understand you want to protect the consumers.

So, let us decide what's best for the consumers and ends all litigation asap when there is a fair settlement presented on the table for all parties already. And get the economy moving on all cylinders again. Thanks for letting me voice my point of view. Good Luck!

Jimmy
